

Hi, We're BikeCitizens and we're looking for a fulltime

Graphic Design Internship

To create and adapt graphical elements print and online for our website, magazine, finn packaging and social media appearance.

Sounds like you? You are just one bikeride away:

We're a team of 30+ running an award winning project in great charming offices based in **Graz** and **Berlin**. We started out creating the world's first navigation App focused on urban cycling and being fully offline capable.

The next big thing was the "**Finn**" smartphone mount. Over the past few years we've steadily created and developed individually optimized products for riding a bike in cities. There's much more to come...

These are the key aspects of your role:

- Support our design team in creation of social media content and strategy
- Assists in the design and development of layouts for marketing materials, using appealing graphics that are well organized
- Utilize strong written skills and bring effective visual ideas from concept through to completion

Bike Citizens is an independent, self-made company (owned and run by the founders) and we make our own rules. For example we decided to work only **4 days a week**, that means weekends start on Thursday evening!

We keep bureaucracy at a minimum and encourage everybody to get involved, which also means bringing in own ideas and fight for them to get real. We have a strong focus on learning by trying new things and by connecting with others (conferences, workshops).

You're an **ideal match** if you:

- Are working towards a BA or certificate from a Fine Arts program/Graphic Design school
- Your education requires an internship as part of the curriculum
- Use prevalent graphic programs (Photoshop, Illustrator, Indesign,...) on a daily basis
- Have got a grasp for marketing and a natural feeling for picture language
- Are able to design one-pager, header, presentations, brochures, etc. independently
- Are able to define and work to deadlines
- Are a positive and proactive person
- Have good skills in any of: cooking, Wuzzler, chess ;-)

Sounds like you?- we're dead keen to get to know you
